

PRIYAM KUMAR DAS

priyamkumardas@gmail.com ♦ (+91) 7003267136 ♦ [Linkedin](#) [Leetcode](#)

SKILLS

Languages	Java, JavaScript (ES6), TypeScript
Frontend	Angular, React
Backend	Spring Boot, Hibernate, Express.js (Node.js), AWS Lambda
Databases	PostgreSQL, MySQL, MongoDB, Firestore
Mobile	React Native, Ionic (Capacitor / Cordova)
Tools	Docker, AWS Cloud, Git, Kafka, JUnit, Redux, Data Dog, Splunk, Kubernetes
Other	Agile, Data Structures & Algorithms, Design patterns, Object Oriented Programming, MicroServices, CI/CD

EXPERIENCE

Simplify3x — Senior Software Developer May 2024 - Present — Bangalore, India

- **Building a scalable AI-driven email categorization system** leveraging AWS Textract (Java SDK) for OCR-based attachment parsing; integrated Kafka for asynchronous processing and enhanced microservices architecture to improve system reliability and modularity. (**Spring Boot, AWS Textract, Kafka, Angular**)

Sarvm.ai — Senior Software Development Engineer Feb 2022 - Aug 2023 — Bangalore, India

- **Engineered scalable payment and logistics solutions:** Implemented UPI Intent Flow for instant merchant payouts, eliminating gateway fees and contributing to a 15% revenue increase. (**Spring Boot, PostgreSQL**)
- Reduced logistics API latency from 3s to 1s using Geohash and Redis caching; implemented CQRS and Event Sourcing to improve throughput and reduce DB load. (**Node.js, Kafka, Redis, MongoDB**)
- **Accelerated development and deployment:** Created a reusable Node package used across 5 apps; built CI/CD pipelines that reduced time-to-market by 40% (**Angular, Node.js, GitHub Registry**).

Zreyas Technology — Web Developer Aug 2021 - Nov 2021 — Kolkata, India

- **Optimized a real-time IOT feedback system** by replacing long polling with WebSockets, significantly reducing latency and network load. (**React.js, Express.js, AWS, MongoDB, WebSockets**)

StrayDopt (Founding Engineer) Feb 2020 - Aug 2021 — Remote, India

- **Led a personal social-impact project** to build a mobile app for stray animal adoption, implementing user-friendly workflows to connect shelters with potential adopters. (**Ionic - Angular, Firebase**)
- **Delivered multiple client projects** (contract-based), including a logistics app with real-time GPS tracking and MQTT-based IoT messaging. Integrated Google Maps APIs and built RESTful services to support scalable mobile/web platforms. (React Native, Node.js, NoSQL,)

Sketch Web Solutions — Web Developer Jun 2019 - Feb 2020 — Kolkata, India

- **Developed and integrated a purchase module** (REST APIs) into a POS system across Android (Java) and web platforms, ensuring fail-safe transactions using database triggers. (**CodeIgniter 3, SQL**)

PROJECTS

Income Tax Department. Led frontend refactoring (Sept 2023 – Apr 2024) as a contract developer with Infosys, transforming legacy Angular code into a modular architecture using custom Angular libraries to boost maintainability and scalability.

Click-Code, a VS Code extension powered by OpenAI and Node.js , enabling developers to receive AI-assisted code suggestions and logic explanations. Users connect via personal OpenAI API tokens; currently in early-stage development with core functionality in place. [Repo](#), [Live](#)

EDUCATION

B. Tech, Computer Science & Engineering, MAKAUT (formerly WBUT)

Aug 2015 - Jun 2019
